MIC2027

26th Machining Innovations Conference
for Aerospace Industry

CALL FOR PAPERS 2027

New Production Technologies in Aerospace Industry

3rd & 4th February 2027
at the Hannover Centre for Production Technology
PZH (Garbsen, Germany)

MANUFACTURING INNOVATIONS NETWORK

IFW
Institut für Fertigungstechnik
und Werkzeugmaschinen

MIC2027
26th Machining Innovations Conference
for Aerospace Industry

Call for Papers Announcement

The „Machining Innovations Conference for Aerospace Industry“ shows future challenges, trends and developments of the branch. This year's program with experts from industry and science gives an excellent outlook into the future of production technologies in the aerospace industry.

The conference will take place over two days and will feature presentations from industry and research. Contributions from the industry will be presented by invited speakers from prestigious companies, while contributions from the research side will showcasecurrent scientific studies. Therefore, you are invited to submit your research paper to us. Accepted papers will be published in the conference proceedings.

Be part of the Machining Innovations Conference 2027!

Submissions

Contributions from scientific institutions should not exceed 8 pages (language is English). The papers will be peer reviewed and it is not allowed to submit papers which have already been published elsewhere. The best papers will be presented at the conference. To submit a paper and for more informations, please visit the website of the Machining Innovations Conference for Aerospace Industry:

www.mic-conference.com

Important Dates

August 10th 2026	Abstract Submission Deadline
August 10th - 17th 2026	Notification of Acceptance
September 15th 2026	Full Paper Submission
October 15th 2026	Review/Notification of Acceptance
November 13th 2026	Final Paper Submission
